Keep Tellin Yourself You Were Right

The Dead Rabbitts

If you're looking for some clarity
I'm right here
You're a fucking tragedy
Built by fear
Speak when you're spoken to, do what you're told
You're living and you're dying alone

You are so pitiful
Keep telling yourself you were right
Whatever helps you sleep at night
You're a ghost
Dark as a black hole
Keep telling yourself you were right
Whatever helps you sleep at night

Sleep at night, sleep at night
Whatever helps you sleep at night

I am the remedy
To your disease
You can keep climbing but you'll never reach me
Speak when you're spoken to, do what you're told
You're living and you're dying alone

You are so pitiful
Keep telling yourself you were right
Whatever helps you sleep at night
You're a ghost
Dark as a black hole
Keep telling yourself you were right
Whatever helps you sleep at night

You never cared so just give it up
You never cared now you're going nowhere

You are so pitiful
Keep telling yourself you were right
Whatever helps you sleep at night
You're a ghost
Dark as a black hole
Keep telling yourself you were right
Whatever helps you sleep at night

Sleep at night, sleep at night
Whatever helps you sleep at night
