

Impossible Winner

The Dead Weather

I am the desert sun
The ever endless sea
Not a drop of blue or white
Is where it shouldn't be
I'm a wheel going round
In a mirror house
A maze with no way out
What you have fears about
Holding on
To everything that's come and gone
I need distraction
Get me out from in-between
Everything I've ever seen
Don't be long
I'm no beginner
I'll be here every night
My name up in lights

The impossible winner

I'm the wilderness
Dark end of the street
Coast of infinity
Far as the eye can see
I'm a white noise, sound
Thorn upon a thorn
But when that whips around
No part of any storm
Holding on
To everything that's come and gone
I need distraction
Get me out from in-between
Everything I've ever seen
Don't be long
I'm no beginner
I'll be here every night
My name up in lights

The impossible winner
The impossible winner
The impossible winner

Drag my body through the sand
Drag my body down the road
Drag me up to the air
Turn around
Here I am
Drag me down, down low
Down, down small
Makes no difference
Turn around
Here I am
Holding on
To everything that's come and gone
I need distraction
Get me out from in-between
Everything I've ever seen

Don't be long
I'm no beginner
I'll be here every night
My name up in lights

The impossible winner
The impossible winner
The impossible winner
