

Outside

The Dead Weather

Showing signs of nothing but troubled times
Since I had you
Had you on my mind

But your heart is locked
You left me outside

Don't get a buzz, baby
When I start buzzing when you're here
Why don't you return?
Please come over here

But your heart's locked up
You left me outside

You left me outside

I been brought down
And it's a bad sensation
It's just too much
Too much for me to take

Without a chance now
There's no romance now
I better leave before I break

Oh oh

Hey

I been brought down
And it's a bad sensation
It's just too much
Too much for me to take

Without a chance now
There's no romance now
I better leave before I break

Oh oh

Don't get a buzz, baby
When I start buzzing when you're near
Why don't you return?
Please come over here

But your heart's locked up
You left me outside
