

## Asstronaut

The Dead

My asstronaut needs to explore  
To go where man should be fore sure  
The black hole leads to a darker space  
First in your ass, then in your face

My teaser-beam  
Will make you scream  
Beam my Jim  
In cum you swim

The voyage starts, my cosmic dear  
I'll reach the final crack frontier  
The anal hangar has overcome  
My spermtroops stream out  
Computer-controlled defloration  
Highest mission, ass-invasion

Be prepared - fasten seatbelts  
Switch position - for the landing  
Mrs. Houston - we have a problem  
Buffer overflow - get ready for takeoff

Assimilation takes control  
Your buttocks need my grip  
Plug & play ass-patrol  
It's square to be hip!

Smell the fuel - warp drive activated  
Assploitation - mission established!

The capture-flag sticks in your ass  
Unconditional surrender  
Prepare for the pelvis irrigation  
My laser-gun loves you tender
