

Watch Me Puke

The Dead

I delight you with my gastric slime
Bulimia's not a fucking crime
I'm diving down the toilet-edge
If you'd like to see me puke and retch!

Disgusting stench, an acid nuke!
I don't speak French - just watch me puke
Scratch my throat and pull the plug
A smelly load from a barfing thug

Inhale my sour halitosis
As I belch myself out piece by piece
The vicious bile is running hot
this time you gotta drink a lot

I belch for you my song of choke
With my finger deep inside my throat
This sour smell straight from my mouth
Oh kiss me and puke yourself out!

I'll give you a swig of my acid taste
For you my bile's wine not waste
My vicious love of bitterness
Baptizes you as I make a mess

Apparently you can't deny
This odor really makes you high
I'm diving down the toilet-edge
If you'd like to see me puke and retch!
