

# Blood

The Dears

This blood  
is not a stranger's or a buds  
it's sympathy from up above  
soakin' us in blood  
and we learn the hard way

What's that in your eye  
you have been fantasizin'  
possibilities  
ways of getting into me  
you're getting into me

Since I was a baby  
I have always been this way  
I can see you comin'  
from a billion miles away  
comin', comin'

Their loss you'll find  
but no one's empathizin'  
bring em to their knees  
bring all their heads to me  
bring all their heads to me

Since I was a baby  
I have always been this way  
I can see you comin'  
from a billion miles away  
comin', comin' down  
comin', comin'

What's left of your life?  
A tear from sympathizin'  
comin' from above  
soakin' us in blood  
soakin' us in blood  
soakin' us in blood

Since I was a baby  
I have always been this way  
I can see you comin'  
from a billion miles away  
Since I was a baby  
I have always been this way  
I can see you comin'  
from a billion miles away  
comin', comin' down  
comin', comin'  
comin'

This blood  
is not a stranger's or a buds  
we learn the hard way  
we learn the hard way  
we learn the hard way
