

# Meltdown In A Major

The Dears

Is this  
a cry  
for help  
are you gonna die  
it's okay to think that  
once in awhile  
no one knows  
just how you're suffering

they're drunk on the streets tonight  
so who cares just how you are suffering

just speak  
the words  
beamed down here from up above  
even though people think you're wrong  
I know you're on to something  
most people will say you're wrong  
but I know you're on to something

I think the world of you  
just say the words  
beamed down from above  
even though people say you're wrong  
I know you're on to something  
Most people will kick your ass.  
I know you're on to something.
