

# Freedom Means

The Dells

Freedom means being able to say what's on your mind  
And speak right out  
And talk about the things we know that should be better  
And freedom means being able to make your space in time  
And if we try, there's no doubt  
We can work it all out together  
Sister, lend a helping hand  
And brother heed the call  
A brand new day  
Is dawning on us all  
We're children of the Sun  
And we're heading home again  
There's a long journey ahead  
So we might as well begin  
Our true selves are somewhere out beyond the stars  
It's time for us to try uniting  
We got make a whole new scene  
And maybe then, We'll understand  
What Freedom means  
(We'll understand just what freedom means)

We'll understand just what freedom means

Don't you know  
Freedom means  
Being able to say what's on your mind  
And speak right out  
And talk about  
Things we know that should be better

We can work it all out together
