

## Get On Down

The Dells

Everybody free your body  
Get on up and party hearty  
Everybody turn around  
Grab somebody and get on down

(Get on down, get on down) sure enough  
(Get on down, get on down) sure enough

Getting down is the best thing around  
To take pain and sorrow away  
What I prescribe will keep you alive  
Start today, don't delay  
(Get up off your feet) yeah!  
(Move your feet) sure enough

Everybody, come on and sing  
Don't worry if you can't, just do your thing  
Come on and sing this melody  
You can take the lead of the harmony  
Now come on! Sing along, sing along

Getting down is the best thing around  
To take pain and sorrow away  
What I prescribe will keep you alive  
Start today, so don't delay, oh!  
(Get up off your seat) come on and get down!  
(Move your feet)

Alright, let's get on down, hey! Woo-woo!  
Give me a taste, ha-ha
