

Let's Do It Over

The Dells

Let's do it over
Let's do it over

Looking back
Over those happy days
I can see it all now
I should've changed my ways
But I was a big man, too big to understand
That I had happiness
In the palm of my hands
So come on and let's try it baby

One more time now
Let's do it over
Let's do it over
Cause I'm down and I need your love

Do you recall
When we were together then?
The many, many, many, many, many nights
The many nights I held you near
And as the world stood still
We just couldn't get our feel
Of your sweet love, sweet precious love
Now I'm down and I need your love

So come on and whoa
(Come on, come on, come on, yeah, yeah, yeah, yeah)

Oh
Let's do it over
Let's do it over
Let's do it over
