

Let's Make It Last

The Dells

Let's say
We've got a good thing
Now you'll say
(We've got a good thing)
And I'll say, we've got a good thing...

Now we can say we got our own little share of happiness
It's the start of something beautiful
It's a world that before we met we never knew
Let our hearts realize the treasure of each moment

May I never have to wake up and find you gone
Let's make it last for a lifetime
Let's make it last for a lifetime
'Cause I want to spend my one lifetime with you
Let's make it last

This love is strong, there's the need for us to stay together
It's a shelter from the rains of loneliness
It's a bind to stand the strongest test of time
In the years to come, we'll be truly faithful
For the many dreams of love we left behind

Let's make it last for a lifetime
Let's make it last for a lifetime
'Cause I want to spend my one lifetime with you bae
Let's make it last

Make it last
Until the universe and all those stars fall over
Make it last
Until a simple rose becomes a four leaf clover
Make it last
Make it last 'til the end and far beyond, forever more
Let's make it last

It's a shelter from the rains of loneliness
It's a bind to stand the strongest test of time
In the years to come, we'll be truly faithful
For the many dreams of love we left behind

Let's make it last for a lifetime
(Let's make it last)
Let's make it last for a lifetime
(Let's make it last)
Forever and ever for a lifetime
(Let's make it last)
We got a good thing past the lifetime
(Let's make it last)
Till the stars fall out from the skies
Past the lifetime
(Let's make it last)
'Til the end of time, for a lifetime...
