

Love Is Missing From Our Lives

The Dells

You and me, we were meant to be
And I, I see it
You and me, we were meant to love and (and)
I, I believe it (I believe it)
I really do believe it

But you can't see the forest
Cuz you're looking at the trees
You don't even know that
That you love me

Don't you feel like there's something missing? (don't you feel it?)
Missing in your life
I'm missing you (I'm missing you)
You're missing me too (now don'tcha feel it)
Love is missing from our lives

You and me, we were meant to live
But somehow, baby
We ain't living, we really ain't living

Oh! Can't you open your heart?
And for the first time really see
Baby, I need you
Just as bad as you needed me
Ooh yea...

Don't you feel like there's something missing? (Don't you feel it?)
Missing in your life
I'm missing you (I'm missing you, now don'tcha feel it)
Love is missing from our lives
We need a little love, in our life
Don't you feel it?
So much love
We need love
I missing you too
