

Our Love

The Dells

Huh! Come on! Come on, now! Oh, oh!
(Our love, our love, our love is gonna last forever)
Forever and ever (ever), and ever
(Our love, our love, our love is gonna last forever)
You know it, baby (ever)

I know I run and stay out late every once in a while
But don't you worry, rest assured, you're the only one, yeah yeah
Who can make the man in me come alive so sexually
There's no other in this universe
Who could ever make me do all the things I do for you
So if doubt should arise, just throw it out of your mind

(Our love, our love, our love is gonna last forever)
Oh, forever and ever (ever), and ever
(Our love, our love, our love is gonna last forever)
There's no doubt in my mind (ever)

Now, we're a team, yes we're a winning combination
My alliance is to you, you're my whole life's motivation
Oh, you've got that quality, the right kind of chemistry
We can build a dynasty
Together 'til the seas run dry, 'til the stars fall from the sky
Eternally and endlessly, 'til I die, it's you, you and me

(Our love, our love, our love is gonna last forever)
And me, me and you, baby (ever)
Oh baby, baby, forever
(Our love, our love, our love is gonna last forever)
I know, I know (ever)

Oh! Higher! Come on now, come on!
Come on! Come on now!

(Our love, our love, our love is gonna last forever)
Oh... (ever) forever and ever
(Our love, our love, our love is gonna last forever)
Last forever (ever)
(Our love, our love, our love is gonna last forever)
No more short-time love (ever)
(Our love, our love, our love is gonna last forever)
Just me and you, girl (ever)
(Our love, our love, our love is gonna last forever)
Forever and ever (ever), and ever and ever, baby
(Our love, our love, our love is gonna last forever)
That's a long, long time (ever)
(Our love, our love, our love is gonna last forever)
We can never (ever), never change our mind, oh baby
(Our love, our love, our love is gonna last forever)

You see, baby, you bring out the man in me
I come alive so sexually, yeah baby, hey baby!
We got the right kind of chemistry
Together we can build a dynasty
(Together forever, forever together) hey baby!
(Together forever, forever together) 'til the seas run dry
(Together forever, forever together) 'til the stars fall from the sky

(Together forever, forever together) I'll love you

(Our love, our love, our love is gonna last forever)

Oh, baby... (and ever)

(Our love, our love, our love is gonna last forever)

Oh baby, our love is forever, baby (and ever)

(Our love, our love, our love is gonna last forever)

'Til the stars fall from the sky

I'll love you my whole, my whole (and ever), my whole life

(Our love, our love, our love is gonna last forever)

Ooh baby (and ever), forever!

(Our love, our love, our love is gonna last forever)

I'm gonna love you forever (and ever), oh

(Our love, our love, our love is gonna last forever)

Forever, baby, oh baby... (and ever...)
