

## Reminiscing

The Dells

Reminiscing about you girl  
Reminiscing about you  
Reminiscing about you girl  
Reminiscing about you

I was just reminiscing  
On your love I've been missing  
I need a reminder  
Of how it was before you left me

So I stopped by the old café  
Where we used to meet  
We were just kids in our teens  
Full of joy and laughter  
And great big dreams

Reminiscing about you girl  
On your love I've been missing  
I need a reminder  
Of how it was before you left me

The old place ain't the same you'll see  
So I took our favourite leaf  
I dropped in a dime  
And I played our favourite melody  
And then pretended you were here with me
