

Stay In My Corner

The Dells

If you stay-ay-ay darling (stay in my corner)
You make me so proud, stay darling
Please stay in my corner
To the world I'd cry my love

How I love you
Honey I love you, I really love you
Please, please, please stay darling
And I will never never let you down

Just say you'll stay
Stay in my corner
'Cause I'll need you always around
To tell me you love me
Honey love me, so darling stay

There'll be times when I may fail
I'll need your love to comfort me
But if these may prevail
But just a kiss from you

Will make things sweet
MMM stay, ohhhhh stay
One more time baby
But just a kiss from you

Will make things sweet
Honey I love you, I love you
I love you
