

# Lump in My Throat

The Departure

I've got a lump in my throat  
You say 'no-one's to blame but me'  
And all the freaks on the front page  
Telling little white lies

Programmed for an hour  
Of Prime-Time TV  
Look straight to the camera  
Telling little white lies

I've got a bag with no airholes  
I've got a chair with no seat  
I'm gonna put myself inside this  
And try and get some sleep

I've got a bag with no airholes  
I've got a chair with no seat  
I'm gonna put myself inside this  
And try and get some sleep

I've got a lump in my throat  
Yeah you're all the same as me  
On the same fashion stage  
Nothing will surprise

Inside machines  
Plugged into plan  
And all the freaks on the front page  
Telling little white lies

I've got a bag with no airholes  
I've got a chair with no seat  
I'm gonna put myself inside this  
And try and get some sleep

I've got a bag with no airholes  
I've got a chair with no seat

I'm gonna put myself inside this  
And try and get some sleep  
To believe in television  
And all the freaks down the front

You're gonna get yourself all made up  
You're gonna get yourself torn

Just try and get some sleep (x 4)
