

## For My Brother

The Derek Trucks Band

For my brother, for my brother  
For my brother, for my brother

For my brother, for my brother  
For my brother, for my brother

In the battle for the california sun  
The windows up against you hangin' around again  
Things are pushin' on they're way  
No one here is pulling their punches  
I wish I was allowed to say  
Imagine just how much it is for

For my brother, for my brother  
For my brother, for my brother

The heat and the sidewalk take me in - ??  
It's time I think about the greatest sound I've ever  
known  
Teach a man to kiss your feet  
Teach a man to hold his thunder  
Come across a great emotion  
Strong enough to pull you under

For my brother, for my brother  
For my brother, for my brother
