

Old Plank Road

The Deslondes

Let's go down the old plank road
Down there's where we got our start
Feels like such a long time gone
Looking for a little piece of my heart

Let's go where the sun never shines
That bar where the people don't smile
A drink or two we can take our time
I'll listen if you talk a while

This world ain't all it seems
There's more here than meets the eye
Wheels turning behind the scenes
Stars burning through the moonlit sky

And ain't it just like you and me?
To be down here on the ground
Going down an old plank road
To the bar in a one horse town

Remember when we watched the sun go down
Then we watched it come up again
Remember when I'd spin you around
Thought the music wouldn't ever end

It felt good just to see you smile
Felt right when you held me tight
Hoping we'll stick around a while
Hoping we can make it through the night

And I don't really wanna see it go
I don't wanna leave it all behind
Where we're heading now I don't know
Is there something better down the line?

And ain't it just like you and me?
To be down here on the ground
Going down an old plank road
To the bar in a one horse town
