

Ways & Means

The Deslondes

You bought into the hype
You were the guileless type
You had hopes and dreams
You had hopes and dreams
You're right you're never wrong
That's how they string you along
They got ways and means
They got ways and means

Ways and means
You never say what you mean
You never tell them where you been
All your life
All your life

Have you gone too far?
Forgotten who you are?
You had hopes and dreams
You had hopes and dreams
You lived your life too fast
Now the good time's past
That's the ways and means
That's the ways and means

Ways and means
You never say what you mean
You never tell them where you been
All your life
All your life

The cars are crawling home
It's another day gone
Where's your hopes and dreams?
Where's your hopes and dreams?
You wrote your name in the sky
Did you fall or did you fly?
That's your ways and means
That's your ways and means

Ways and means
You never say what you mean
You never tell them where you been
All your life
All your life
All your life
