

## Chains Are Broken

Devil Makes Three

We used to get drunk and want to fight  
Go out lookin' on a Saturday night  
You had me runnin' like it was for my life  
Drinkin' down fumes like that neon light

But now its chains are broken, I've been set free  
I was blind, now I see  
When you're treated like a dog that's how you start to believe  
You're gonna miss me like the masters missed [?]

We used take pills and hope to die  
Sing ourselves a suicidal lullaby  
Nobody drivin' and I'm passenger-side  
You made me the master of the long goodbye

But now its chains are broken, I've been set free  
I was blind, now I see  
When you're treated like a dog that's how you start to believe  
You're gonna miss me like the masters missed [?]

So down and nervous I could die of fright  
For lack of [?]  
I said, I don't need no glasses, I got perfect hindsight  
I say we pray for lightnin' and hold onto this kite

'Til its chains are broken, I've been set free  
I was blind, now I see  
When you're treated like a dog that's how you start to believe  
You're gonna miss me like the masters missed [?]  
You're gonna miss me like the masters missed [?]
