

## Hallelu

### Devil Makes Three

Nothing is wrong here so I'm climbing up the walls  
Trying to kill this silence with gun blasts and alcohol  
I've been laughing, I've been crying, I've been living, I've been dying  
They say tell the truth, they're lying, Hallelu

Hallelu, Hallelu, praise the lord and pass the ammunition too  
They say Jesus is coming, he must be walking, he sure ain't running  
Who can blame him, look how we done him, Hallelu

What will it take to have this place on bended knee  
You run to the forest, you can bet I'll burn the trees  
I will poison the water 'cause it's only getting hotter  
And we came for sons and daughters  
Hallelu

Hallelu, Hallelu, praise the lord and pass the ammunition too  
They say Jesus is coming, he must be walking, he sure ain't running  
Who can blame him, look how we done him, Hallelu

Trials and tribulations, that's just bread and wine  
Getting my hands dirty, that does not take off the shine  
On this farm to get your filling, there's got to be a little killing  
So I am ready and I'm willing, Hallelu

Hallelu, Hallelu, praise the lord and pass the ammunition too  
They say Jesus is coming, he must be walking, he sure ain't running  
Who can blame him, look how we done him, Hallelu

If you're waiting on salvation you'll need candles and libations  
Train ain't coming in the station, Hallelu

They say Jesus is coming, he must be walking, he sure ain't running  
Who can blame him, look how we done him, Hallelu
