

## All Out

The Devil Wears Prada

I'm all out

When the ice thawed, we set our sights to the north  
The center of the sun for all that it's worth  
We went all out  
All out  
Turns out you were only there for you  
Selfishness, your leading virtue  
Remember

It was you that helped shape me  
I tried to be true, I tried to see through you  
Whoa, you stood back to watch me leave  
Not another word, just throw out the key

We never took some time for grace  
So this is war  
So this is war  
My oldest friend  
Turns out that this is war  
No space to further bend, I'm all out  
I'm all out  
Remember

It was you that helped shape me  
Oh, you stood back to watch me leave  
Remember

It was you that helped shape me  
I tried to be true, I tried to see through you  
Whoa, you stood back to watch me leave  
Not another word, not another word

It was you that helped shape me  
Tried to be true, tried to see through you  
Stood back to watch me leave  
Not another word, just throw out the key

All out of life to give  
I'm all out  
I'm all out
