

# Numb

## The Devil Wears Prada

Paint a picture in my head  
Yellow, black, and red  
Use it as a disguise  
Spray it down to reset  
Clean bodies at rest  
Pull the wool over my eyes

Over my eyes

Push me 'til the very end  
This life was all but over when  
All of my friends found their graves  
Now use me 'til there's nothing left  
Then shoot me with your medicine  
'Til I can't feel any more pain

I'm numb to this place

Painting pictures in my head  
Painting pictures, I'm  
Painting pictures in my head  
(In my head)  
Painting pictures in my head  
Painting pictures, I'm  
Painting pictures in my head

Pull the shades closed  
Turn this town off  
You see right through me  
Just turn this town off

So push me

Push me 'til the very end  
This life was all but over when  
All of my friends found their graves  
Now use me 'til there's nothing left  
Then shoot me with your medicine  
'Til I can't feel any more pain

I'm numb to this place

Painting pictures in my head  
Painting pictures, I'm  
Painting pictures in my head

Painting pictures in my head  
Painting pictures, I'm  
Painting pictures in my head

Painting pictures in my head  
Painting pictures, I'm  
Painting pictures in my head
