

# Ritual

## The Devil Wears Prada

End of the rope, sever the ties  
Another day the same disguise  
It's like we lived it all before  
(It's like we lived it all before)

How do you hope when everyone lies  
No one looks me in the eyes  
Shut me out, close the door

So we  
Scream the word, spell it out  
Keep doing the same  
Sing the song, spread the word  
Keep doing the same  
Fall in line, keep spinning like a figure eight

I said I don't need you to save me  
I'll be what you make me  
Let you lead me on and on like repetition  
Fill my head with bad decisions  
What if everything we want  
Is everything that keeps us lost and miserable  
Let's live for the ritual

Drown ourselves in the routine  
Comfort in conformity  
Know your future  
Give up your dreams

So we  
Scream the word, spell it out  
Keep doing the same  
Sing the song, spread the word  
Keep doing the same  
Fall in line, keep spinning like a figure eight

I said I don't need you to save me  
I'll be what you make me  
Let you lead me on and on like repetition  
Fill my head with bad decisions  
What if everything we want  
Is everything that keeps us lost and miserable  
Let's live for the ritual  
We're so lost and miserable  
Let's live for the ritual  
(Let's live for the ritual)

Know your future  
Give up your dreams  
No  
Pick it up, pick it up, pick it up

To know your future  
Give up your dreams  
To know your future  
(Give up your dreams)

I don't need you to-

I don't need you to save me  
I'll be what you make me  
Let you lead me on and on like repetition  
Fill my head with bad decisions  
What if everything we want  
Is everything that keeps us lost and miserable  
Let's live for the ritual  
We're so lost and miserable  
Let's live for the ritual

We're so lost and miserable  
Let's live for the ritual
