The Silence

The Devil Wears Prada

```
Don't even care about it
Know it will all go wrong
Can't find the way around it
Backs me up against the wall

I've been waiting for a free fall this time
Standing on the edge of my lonely mind
My lonely mind

Floating above my body
Look into my own eyes
Some things you have to see from this side

Don't even care about it
Know it will all go wrong
Can't find the way around it

Always better when I break down
'Cause that's my way out
I feel safe in the concrete
Weighing down my feet now
When I'm face down
Cut out the sound
Leave me with the silence
I don't wanna be found
I don't wanna be found

I've been waiting for a free fall this time
Standing on the edge of my lonely mind

Don't even care about it
Know it will all go wrong
Can't find the way around it

Always better when I break down
'Cause that's my way out
I feel safe in the concrete
Weighing down my feet now
When I'm face down
Cut out the sound
Leave me with the silence
I don't wanna be found
I don't wanna be found

I don't wanna be found
Always
I don't wanna be found
```
