

# Everything Comes Around

The Devlins

In the crystal night I knew  
My tears were inside you  
I could see it in your eyes  
In the space between the words  
I thought that I had heard  
Something I could recognize

And the touch of her skin  
Like a needle going in  
Like another secret I can't hide  
The voice of experience  
This time it made no sense  
Something I could recognize

Oh, but everything comes around  
Everything comes around  
Everything comes around  
Sooner or later

The enemy on the wall  
Watch it speed, watch it crawl  
Watch it take away the ones you love  
A new day is innocent  
And a circle it has no end  
So much you can rise above

Oh, but everything comes around  
Everything comes around  
Everything comes around  
Sooner or later

Everything comes around  
Everything hits the ground  
Everything comes around  
Sooner or later

And this life goes on  
And this life goes on

Everything comes around  
I'll never let you down  
Everything comes around  
Sooner or later

Everything comes around  
Everything comes around  
Yeah, Everything comes around  
Sooner or later

Around  
Everything comes around
