

Feel It When You're Gone

The Devlins

I feel it when you're gone
When the rush I get moves on
Now you're turning out the lights, on a pathway through the night
It hits me when you leave, when I get but don't receive
Because you're moving out of sight
Down a side street in your life

But oh, I know where you belong
And oh, I feel it now you're gone
Oh, I know that I was wrong

I feel it when you're gone, when the closing lights come on
Did I push you away with the things I could not say?

But oh, I know where you belong
And oh, I feel it now you're gone
Oh, I know that I was wrong
I feel it when you're gone
I feel it when you're gone

Now you're gone
Now you're gone

But oh, I know where you belong
And oh, I feel it now you're gone
Oh, I know that I was wrong
I feel it when you're gone
I feel it when you're gone
I feel it when you're gone
I feel it when you're gone
