

# Kill With Me Tonight

The Devlins

Lay your hands upon me  
Lay my head down low  
Take this sickness from me  
From my world below

Use your eyes as weapons  
Deep in the nighttime sky  
Choose your words so slowly  
To watch you now I wonder why

Hold me close, I feel it coming  
Far away and out of sight  
Hold me close, I know it's coming  
Changes to our lives  
So kill with me tonight

Know these days will take you  
Know it won't be long  
Could you do it for me?  
Could you be that strong?

And your mind may weaken  
You may find yourself  
Lost alone and bleeding  
But for now there's no one else

So just hold me close, I know it's coming  
Far away and out of sight  
Hold me close, I feel it coming  
Changes to our lives  
So kill with me tonight

Hold me close, I feel it coming  
Far away and out of sight  
Please, you know I forget nothing  
Changes to our lives  
So kill with me tonight, kill with me tonight  
Tonight it's gonna be alright

Kill with me tonight, it's alright  
Know it's gonna be alright
