

One of Us Is the Killer

The Dillinger Escape Plan

She moves abstract just
Like a shadow dancing
On the edge
Like a storm cloud passing
Overhead
Effortless and free

As the hours rush by
Through her I can sense the
End of time
There's no way this can
Forever shine
Make the sun not rise

In the air we tried to be
But you shot your arrow through me
Now one of us must die
But the killer won't survive

She moves abstract just
Like a shadow dancing
On the edge
Like a storm cloud passing
Overhead
Hypnotizing me

As the hours rush by
Through her I can sense the
End of time
Stretching to eternity divine
And the sun won't rise

In the air we tried to be
But you shot your arrow through me
Now one of us must die
But the killer won't survive
In the air we tried to be
But you shot your arrow through me
Now one of us must die
But the killer won't survive
And the killer won't survive

Survive
Survive

In the air we tried to be
But you shot your arrow through me
Now one of us must die
But the killer won't survive

In the air we tried to be
But you shot your arrow through me
Now one of us must die
And the killer won't survive
And the killer won't survive
