

# Apollonia

The Dip

I woke to see your tail lights disappear  
Into the misty morning fog  
And before I had my boots on  
You were ten miles down the road

Apollonia!  
Tell me what you're searching for  
Apollonia!  
'Cause no man can love you more  
Apollonia!  
Tell me what you're hoping to find  
'Cause in the meantime I am losing my mind without you  
Apollonia

Thought you came back home for good this time around  
But it's clear I was mistaken  
The tire tracks that you painted on the ground  
Tell the story of my poor heart breakin'

Apollonia!  
Tell me what you're searching for  
Apollonia!  
'Cause no man can love you more  
Apollonia!  
Tell me what you're hoping to find  
'Cause in the meantime I am losing my mind without you  
Apollonia

Apollonia!  
Tell me what you're searching for  
Apollonia!  
'Cause no man can love you more  
Apollonia!  
Tell me what you're searching for  
Apollonia!  
'Cause no man can love you more  
Apollonia!  
Tell me what you're hoping to find  
'Cause in the meantime I am losing my mind without you  
Apollonia
