

Love Direction

The Dip

Ooh! A little lovin' could go a long way
A little tenderness is all we're hoping for
We've been traveling down the road the wrong way, yeah
We need to back up and get some love directions
Love directions now

Where do we go from here, my dear?
We've been together far too long to feel this lost and lonely,
yeah
Which is the path to take?
I think we should stop and get some

Love direction, yeah
Love directions

Ooh! Buckle up 'cause it's a rough-ass ride
Just a rumbling down this highway
The time has come for us to swallow our pride
Pull over! And get some love directions
Love directions now

Where do we go from here, my dear?
We've been together far too long to feel this lost and lonely,
yeah
Which is the path to take?
I think we should stop and get some

Love direction, yeah
Love direction
We need to stop and get some, baby
Love direction
Heading in the love direction
(Love direction)
(Love direction)
Heading in the love direction
(Love direction)
Heading in the love direction, baby
(Love direction)
Woah!
(Love direction)
(Love direction)
(Love direction)
(Love direction)
(Love direction)
