

Well I, I used to be your man and I was proud of it  
Do anything you asked me to  
But before I knew it you were running round with him  
What the hell was I supposed to do

What would you say if she was gone off with someone  
What would you say if she was gone woah  
What would you say if she was gone off with someone  
What would you say if she was gone

He should be doing what I done for you  
Should be doing what I done for you  
He should be doing what I done for you  
Should be doing what I done for you

I used to hope and pray that you would stay with me  
Love is a fragile thing  
But now it seems my hope for her was all for nothing  
Cause you done found another man

So what would you say if she was gone off with someone  
What would you say if she was gone woah  
What would you say if she was gone off with someone  
What would you say if she was gone

He should be doing what I done for you  
Should be doing what I done for you woah  
He should be doing what I done for you  
Should be doing what I done for you

He should be doing what I done for you  
Should be doing what I done for you woah  
He should be doing what I done for you  
Should be doing what I done for you
