

## Real Contender

### The Dip

How they hang around  
Like echoes in a chamber  
Floating in and out  
From minor into major  
Wanted you to feel like you could really trust me but maybe  
I just don't deserve it  
But when you think it through  
I'm hoping that you  
Realize that I have always been beside you  
Sand between our fingers  
Time is always movin' along  
(Here and then it's gone)

I wanna be a real contender  
Whether you see it or not  
I know it's in there  
Somewhere this thing that we got  
For once in my life I am sure of something  
For once in my life I am sure of something

I know my eyes deceive a brief and fleeting failure  
They want what they don't need  
I try to see it clearer  
Changin' of the seasons  
Time is always creepin' along  
(Here and then it's gone)

I wanna be a real contender  
Whether you see it or not  
I know it's in there  
Somewhere this thing that we got  
For once in my life I am sure of something  
For once in my life I am sure of...

Something there I should've noticed yesterday  
But now my heart won't let me see it any other way

So I wanna be a real contender  
Whether you see it or not  
I know it's in there  
Somewhere this thing that we got  
For once in my life I am sure of something  
For once in my life I am sure of something  
For once in my life I am sure of something  
For once in my life I am sure of something
