

## Sleep On It

### The Dip

It's been a while since we crossed paths  
But I see you in my dreams  
And in my mind, there's a precipice  
Over which my heart careens  
And when I wake, I want only  
To drift back into slumber  
And wonder, baby  
When I'm gonna see you again

So, let me sleep on it  
Baby, that's all I wanna do  
Float down in reverie  
Let me dream only of you

No, you won't catch me yawnin', darlin'  
I ain't no creature of the night  
The Sandman's a comin'  
And I ain't gonna put up a fight  
I'm just countin' down the hours until I can lay my head to rest  
And dream a dream about you, baby  
And your sleepy caress

So, let me sleep on it  
Baby, that's all I wanna do  
Float down in reverie  
Let me dream only of you  
Only of you

I can't wait any longer  
Oh, just put me under!

So, let me sleep on it  
Baby, that's all I wanna do  
Float down in reverie  
Let me dream only of you

So, let me sleep on it  
Baby, that's all I wanna do  
Float down in reverie  
Let me dream only of you  
Only of you
