

## State Line

## The Dip

Wish I could save you  
Seems like it shouldn't be so hard  
Wish I could replace you  
And maybe we could leave it all behind, oh I wouldn't mind

State line is a hundred miles away but (away)  
I never felt so distant before, woah-oh  
State line is a hundred miles away but (away)  
I never felt so distant before, woah-oh

Let me introduce you  
To all of the ways I can let you down  
Let me seduce you  
And maybe we can get this off the ground, and next time around

State line is a hundred miles away but (away)  
I never felt so distant before, woah-oh  
State line is a hundred miles away but (away)  
I never felt so distant before, woah-oh
