

## Stronger

The Diplomats

Ha, nigga I feel strong, huh  
Ay L's, how you feeling?  
I know how Zeek feel  
(Heatmakerz)  
Ay, Killa, what's up?  
Deaded all my (?) and it took me longer  
Still I stayed down and made me stronger  
No matter what I go through can't lose my hunger  
I feel stronger, I feel stronger, oh  
It's a dedication (what?)  
Matter of fact it's a celebration (well let's go)  
And I ain't trying to preach but, I had revelation (pray for me)  
Now trust me it's hard (ay), but it must be a God (okay)  
'Cause I been getting money for like 20 plus odd (facts!)  
Hard years, must about bought about 20 plus cars (facts!)  
God fearing, young nigga, I was hard of hearing (I was bad)  
And I ain't holding court  
But could be judged for all the cars I'm steering (that's true)  
These Audemars I'm wearing  
When we pulling up and the hoes be staring (hey baby)  
What they need to do is pay homage to the originators (Dipset)  
Before the rap, I would stash coke in the refrigerator (word)  
Before that, I done sold crack at the neighbours  
Just looking back, I had the lumberjack in all the flavors (Uncle Ricky!)  
Deaded all my (?) and it took me longer  
Still I stayed down and made me stronger  
No matter what I go through can't lose my hunger  
I feel stronger, I feel stronger, oh  
Ay, uhh  
It's the almighty Dipset  
Honey dip, come get your lips wet  
You could fuck all of us, yeah bitch, that's Dipsex  
Still pushing weight, still pumping iron  
You don't wanna see the kid flex  
Nigga my arm strong, don't get stretched  
Holes in 'em, leave a nigga lookin' like fish nets  
Got the fishscale in the Pyrex, 'bout to whip that, whip that  
Your new bitch, that's old news, I did that, been hit that  
But for some reason, she miss that, she wanna kidnap my dick back  
I made sure that it was gift wrap, and I lift that  
Still got it, that white girl, Katy Perry, no Riff Raff  
If you broke nigga, you should fix that  
She a hoe, nigga, you can't fix that  
She a hoe, nigga, you can't fix that  
We live that  
Deaded all my (?) and it took me longer  
Still I stayed down and made me stronger  
No matter what I go through can't lose my hunger  
I feel stronger, I feel stronger, oh  
Uhh, she did her thing (did her thing), voila (voila)  
When she (?), her face look like  
She put (?), bye bye  
(?) was everywhere like Wi-Fi, word  
That weed weed, that la la  
Killed the kitty 'cause I'm the cat with nine lives  
Then we (?), round 2 we tore up the villa  
She like "you really a (?)"

I'm like "don't get too familiar" (chill)  
Who can see him? I'd like to see him (please, word!)  
Who could beat him? I'd like to meet him (where he at?)  
Lunch at Peter Luger, me and Ruger, we the rulers  
Pay respect, then pay a check  
Who you met, come meet (?), baby  
Deaded all my (?) and it took me longer  
Still I stayed down and made me stronger  
No matter what I go through can't lose my hunger  
I feel stronger, I feel stronger, oh
