

Ever since you showed up  
Ever since we rolled up  
Givin' me that good head change  
I don't want to lose you  
Everything that you do  
Keep me in that good headspace

I was driftin' on the open sea  
Hopin', I was desperately  
Wonderin' if I'd ever come ashore  
I was stranded in my head again  
You took my hand and led me in  
From that moment on, I knew for sure

I know that you got what I needed  
With you I can hardly believe it  
No way could describe when I'm breathing  
What I'm feeling

Ever since you showed up  
Ever since we rolled up  
Givin' me that good head change  
I never wannna lose you  
Everything that you do  
Keep me in that good headspace

Oh, never wanna come down from your love  
Oh, never wanna come down from your love

Oh, never wanna come down from your love

I was floating in these memories  
Hopin' I was endlessly  
Livin' in your arms forevermore  
You opened up my mind, and then  
I feel like I was alive again  
And from that moment on I knew for sure

I know that you got what I needed  
With you I can hardly believe it  
No way could describe when I'm breathing  
What I'm feeling

Ever since you showed up  
Ever since we rolled up  
Givin' me that good head change  
I never wannna lose you  
Everything that you do  
Keep me in that good headspace

Oh, never wanna come down from your love  
Oh, never wanna come down from your love

Oh, never wanna come down from your love
