

# Make Me

The Dirty Heads

I love how you make, make me  
I love how you make, make me  
Now I know for certain  
Welcome to the version that I am supposed to be  
I love how you make, make me

I've been swimming in your waters  
Like the way it cools me down  
Now I'm bathing in your sunlight  
I ain't ever gettin' out  
I hear you singing like a siren  
Yeah, I like the way it sounds  
If I was stranded on your island  
I hope I'm never found  
(Hope I'm never found, oh-oh)

You always find me when I'm in that doubt (Oh-oh)  
Put me back together when I fall apart (Oh-oh)  
I guess there's really only one thing left to say

I love how you make, make me  
I love how you make, make me  
Now I know for certain  
Welcome to the version that I am supposed to be  
I love how you make, make me

Gonna make me high, gonna make me try  
Gonna make me wonder why  
I'm the best that I can be when I see through your eyes  
Leave the rest to me, to pass on all these broken times  
You're the best and I won't question why you love my vibe  
You always find me when I'm in that doubt (Oh-oh)  
Put me back together when I fall apart (Oh-oh)  
I guess there's really only one thing left to say

I love how you make, make me  
I love how you make, make me  
Now I know for certain  
Welcome to the version that I am supposed to be  
I love how you make, make me

I know that we're coming from the same tribe, yeah  
I know that we're tryna live the same life, yeah  
(Yeah)
