

## Evil Side

The Dirty Nil

Come on baby, tell me are you like me?  
Do you have a darkness no one sees?  
Do you smile when you're up to no good?  
Do you like the taste of your own blood?  
Would you take a walk through the tombstones with me?

Or will you run?  
Just like the others always do  
Just like the others always do  
I'm your man, you know it's true

Evil side  
Even you

Now I'm no stranger to bending the truth  
But I swear to God and his skies of blue  
There's something off with me  
And maybe something off with you

So don't run  
Just like the others always do  
Just like the others always do  
I'm your man, you know its true

Evil side  
Even you have one too
