The Dirty Nil

What happened to you?
You're not the same
There's something in your head
Made a violent change

It's in your head
It's in your head
It's in your head
Filler
You call it religion
You're full of shit
Filler

Was she really worth it?
She cost you your life
You'll never leave her side
She's gonna be your wife

It's in your head
It's in your head
It's in your head
Filler
You call it romance
You're full of shit
Filler

Your brain is clay
What's going on?
You picked up a bible
And now you're gone

It's in your head
It's in your head
It's in your head
Filler
You call it religion
You're full of shit
Filler

You never knew
You never will
Filler
You're another sheep
Looking for a shepherd
Filler

What is going on?
Filler, filler, filler in your head
