

Alice

The Districts

Did you know that everybody lies
Everybody makes the most sometimes
Never know just what it means to die
To disappear from life
Probably we deep and goes to dust [?]
Now their pipes won't kill their row through rust [?]
Millions watching over me

'Cause Alice always wants to go
Without me
She only gets three drugs
When it looks like she is single
That's not right
With me

And I don't wanna mess around
Without her
It ain't my cup of tea
A part of me is thinking
She's not waiting here around

Did it care to help the fruit flies die [?]
To let 'em in
Those temptations never work my friend
Weighing myself towards disappointment
Millions watching over me

'Cause Alice always wants to go
Without me
She only gets three drugs
When it looks like she is single
That's fucked up
To me

And I don't wanna mess around
Without her
It ain't my cup of tea
But part of me is thinking
She's not waiting in
Around

Don't wake the threshes
They're holding it down
Watch how their chests
Puff right up with their breathing
Keep to the whispers
So I can't hear them win
If God is so sure
Think of all I should say

When you wake up in the morning
When you wake up in the morning

'Cause Alice always wants to go
Without me
When it looks like she is single
That's fucked up

To me

And I don't wanna mess around
Without her
It ain't my cup o' tea
But part of me is thinking
She's not waiting here around
