Dancer

The Districts

You know I watch you like a dancer
I get lost in every twirl
Thought that I had found the answer
To land each step and never fall

And then I felt just like a dancer
How I leapt with every sigh
'Cause I was born to be a driver
Grace is fickle, grace is light

You know I watch you like a dancer
I get lost in every twirl
Thought that I had found the answer
To land each step and never fall

Baby, I could be your dancer
Shake you deep into the night
I could take away the answer
Keep you wondering till it's light

Baby, I could be your dancer (Paper tigers on the dance floor)
Baby, I could be your dancer (Paper lanterns 'round my heart)
Baby, I could be your dancer (Paper tigers on the dance floor)
To land each step and never fall (Paper lanterns 'round my hear
t)
