

Hover

The Districts

I crack the code
Only for a second
And then it's gone
Out from your eyes
Pouring just water

You never know
What you can remember
Or if it's right
Filled in the gaps
Fooled by an illusion
Cause nothing lasts
Forever

Stay right beside me
Until we go
Fall right back
To fall right back
Tomorrow

Hover
I never said
I need another
Lover, nothing more
Hovering overhead
A helicopter
Spotlight
I'm as good as dead
Hover

Flash bulb
You're blind
Glass refracts and shatters
In the light
Frozen in time
Held up and captured

What were these lost days
But a series of holograms
Across the cinema of my mind
And where does that leave room for you
Love of my whole life
What were these lost days
But a series of forget me notes
Sand between your fingers
Under blood red skies
Flash bulb you're blind

Hover
I never said
I need another
Lover, nothing more
Hovering overhead
A helicopter
Spotlight
I'm as good as dead
Hover
