

## Long End

## The Districts

Run with me mama  
Run with me mama  
'Til the lights go down below  
Saw blood in the daylight  
Blood in the daylight  
And nowhere left to go  
Swear I'll taste redemption  
I'll taste redemption  
When the pure light turns the wheel  
On down from the mountain  
Down from the mountain  
And my true face gets revealed

The long end  
Long end of history  
Won't defeat me  
Home is where you love  
The long end  
Long end of history  
Seen it all now  
Broken and repaired

Out from the shadows  
Come out from the shadows  
We can make it if we try  
Come be together  
Come be together  
Make love until we die  
I've been ascetic  
I've been ascetic  
Gave up everything but life  
Came down from the palace  
Down from the palace  
Found the whole world turned to cry

The long end  
Long end of history  
Won't defeat me  
Home is where you love  
The long end  
Long end of history  
Seen it all now  
Broken and repaired

The long end  
Long end of history  
Won't defeat me  
Home is where you love  
The long end  
Long end of history  
Seen it all now  
Broken and repaired
