

All Things

The Divine Comedy

All things big and beautiful
All creatures cute and small
All things weird and wonderful
Celebrate them all

The creatures of the land
From country field to desert sand:

Hippopotamus, mole, vole, giraffe, boa constrictor, bunny rabbit, cockroach, man, monkey, wolf, scorpion.

The creatures of the air
The things that fly around up there:

Dragonfly, magpie, duck, parrot, sparrow, sparrow hawk, albatross, wasp, bee, bat, flamingo, mosquito, crow.

All things big and beautiful
All creatures cute and small
All things weird and wonderful
Celebrate them all

The creatures of the sea
From mountain stream to ocean deep:

Octopus, seahorse, jelly-fish, tuna-fish, starfish, plankton, cod, manta ray, rainbow trout, hammerhead shark.

The creatures of the snow
The things that like it nice and cold:

Penguin, polar bear, husky, reindeer, yak, arctic fox, siberian tiger, walrus, seal.

These things were all born free
They weren't put there for you or me
To do with as we please
And how far will we go
Before we lose our way back home?
Well, I don't know.
