Have You Ever Been in Love

The Divine Comedy

Have you ever started dancing in the middle of a shopping mall

Have you ever burst out laughing for no reason at all

Have you ever noticed the rhythms in the rain

And have you ever felt the ecstasy of pain

Have you ever been in love :-)

Have you sung along to all the silly love-songs you hate

And have you had to pinch yourself to make sure you're awake

Have you ever felt like you could float into the sky

Like the laws of physics simply don't apply

Have you ever been in love

Have you ever met somebody who could see inside your head

Have you ever been so happy you've lain awake in bed

Have you ever figured out the meaning of life

Just by looking into someone else's eyes

Have you ever been in love
