

Island Life

The Divine Comedy

Washing your face in the morning dew, island life
Gathering wood for the breakfast brew, island life
Watching the waves breaking on the shore
While cormorants circle up high

This is our island life
Sea and sun, earth and sky
Play all day, sleep all night
This is our island life, island life

Diving for pearls in the shallow sea, island life
Watching for ships from the tallest tree, island life
We can explore till the sun goes down

Then explore some more when we rise

This is our island life
Sea and sun, earth and sky
Play all day, sleep all night
This is our island life, island life

What yesterday was a distant dream
Has now been made real by the night

This is our island life
Sea and sun, earth and sky
Play all day, sleep all night
This is our island life, island life
