

Another Boy Like Mine

The Dixie Cups

There could never be
Another boy like mine
There could never be
Another love so fine
He's so understanding
Never catch him handing me a line
'Cause he's not that kind

There could never be
Another boy like mine
I'll be calling him my baby
'Till the end of time
Every time I see him
I just want to hold him close to me
And kiss him tenderly
That little boy of mine

There could never be
Another boy like mine
Don't you know he sends
Those chills up and down my spine
There could never be
Another love so true
Yes and he means every word
When he whispers, "I love you"

There could never be
Another boy like mine
There could never be
Another love so fine
I could search forever
But I know I'd never ever find
Another boy so kind
Another boy like mine

I could search forever
But I know I'd never ever find
Another boy so kind
Another boy like mine
Another boy like mine
Another boy like mine

...
