

The Watchtower

The Dø

I'm breaking
I need another start
Far away
From the city lights
I don't mind
If I open that
I drove here
And now I'm going back

From the watchtower
We can see things coming
Good or bad
At least we see things coming
From the watchtower
We can read the future
Whatever it says
At least we know what's up

I'm tasting
And now they gonna lie
I'm hearing
And now they gonna sound
I don't mind
If I'm unpopular
I'm thinking
In no one in particular

From the watchtower
We can see things coming
Good or bad
At least we see things coming
From the watchtower
We can read the future
Whatever it says
At least we know what's up

I'm breaking
I need another start
Far away
From the city lights
I'm breaking
I need another start
Far away
From the city lights
