The Dodos

Caught out of focus  
You and I never occurred  
Caught out of focus  
You and I never occurred

Slip  
Caught in the rye, held you  
Caught in the rye, felt you  
Caught in the rye, thank you

Even before I get to the end  
I've heard it before I know what happens

Caught in another's trap  
I can 't keep on looking for the safe lift  
Wouldn't be caught dead without stairs  
I can't keep on ripping the same riff

Even before I get to the end  
I've heard it before I know what happens  
OH, even before I get to the end  
I've heard it before I know what happens
